MANY WOMEN OUT C. OF C. LADIES NIGHT

FIRST CHRISTIAN CHURCH PARLORS COMFORTABLY FILLED.

NEXT DINNER SEPT. 4

To Hold None During Month of August on Account of the Hot Weather.

The parlors of the First Christian Church were comfortably filled last night with men and women who attended ladies' night for the Chamber of Commerce dinner. The women were the guests of the men and about as many of them were present as there were men. A big percentage of the men brought wife, sister or sweetheart.

Dr. Gilbert S. Cox, former pastor of the First Methodist Episcopal Church, was chairman. But owing to the length of the program that had been prepared the chairman did not put in much time speaking. He did, however, make some remarks, among which was a tribute to Ed Schumacher, member of the Chamber of Commerce and progressive citizen of Maryville, who died Sunday morning. Mr. Cox mentioned his friendship for Mr. Schumacher and the efficiency and splendid qualities of the deceased. Mrs. Cox was at the dinner and was introduced by her husband.

Mr. Cox told of how much he was enjoying his visit in Maryville and mentioned especially his trip to the golf course yesterday morning. He said that he felt the need of such a thing as the country club while he was in Maryville and he complimented the men on their organization.

The following program was given:
Piano solo—Thomas H. Annett.
Vocal solo—Mrs. Fred Wolfers.
Bassoon solo—Orrin Miller.
Reading—Mrs. E. W. Atkinson.
Violin solo—C. D. Kutschinski.

The entertainers were applauded liberally and each of them give an encore. Mrs. Wolfers was called back a second time.

The dinner last night was the last one that will be held by the Chamber until September 4, it was announced by Fred Wolfers, president. Mr. Wolfers said that it had been decided to hold no more dinners until September on account of the hot weather during the month of August. He said that the dinner last night was a happy conclusion to a series of programs that was arranged some time ago.

The business session of the board of directors will be held each week as usual during the month of August.

S. T. C. COACH EXPECTS TO BE RELIEVED AT NEW FRANKLIN

Is in Charge of Two Batteries of Artillery Guarding the Railway Shops There.

Capt. Eugene Maynor, who is in charge of the military detachment guarding the Missouri, Kansas and Texas railway shops at New Franklin writes that he expects to be relieved of his duties in time to be in Maryville by August 15. He is to be coach at the State Teachers College this winter. Captain Maynor writes that he is in charge of two batteries of artillery equipped with machine guns, rifles and .45 calibre Colts revolvers.

The Columbia Evening Missourian of Saturday carries a story telling that the guard units at New Franklin are growing weary of the watch at that place. They are confined in a small area and not allowed to get outside. Construction of a shower bath started at the camp Friday makes the men blue, lest they have to stay on the job a long time.

Here From Little Rock

Mr. and Mrs. Forest M. Rowley and little daughter, Alice Lucille, arrived in Maryville Monday, making the trip from their home in Little Rock, Ark., in their motor car. They will visit with Mr. Rowley's grandmother, Mrs. S. J. Rowley and his uncles Burt M. Rowley and Sylvester G. Massie. The trip was made via St. Louis and Kansas City, and at the former place they were joined by Mr. Rowley's father, Fred A. Rowley, who will also visit here. They will leave the first of next week for Carrollton and New Haven, Mo., where they will visit with Mrs. Rowley's relatives.

Walter H. Nixson returned yesterday from Omaha, where he spent the week-end.

Election Returns Tonight

The Democrat-Forum will receive election returns this evening in the circuit court room at the court house. Arrangements have been made by this paper for getting state-wide returns and the Radio Supply Company will furnish returns received by radio from the Kansas City Star.

As the polls are scheduled to close at sun down, 7:19, no county returns will be in before that time. As arrangements have been made for a man in each precinct to phone in the returns of that precinct at the close of the polls, it is expected the county returns will all be in before a late hour.

You are invited to attend. There will be plenty of seats.

LOCAL FRUIT CROP OF MUCH VALUE

TO SAVE PEOPLE OF COUNTY $30,000 TO $50,000

PEACHES AND APPLES

Few if Any of These Will Be Shipped in—Market is Loaded with Tomatoes

The fresh fruit which is raised in Nodaway County this year will save the people of the county from thirty to fifty thousand dollars, is is estimated.

The greatest saving will be in the way of apples and peaches. Ordinarily there are from four to eight carloads of peaches shipped into Maryville alone during the year and about twelve carloads shipped into the county. These cars will range from $1,500 to $1,800 in price. This will vary from year to year according to the amount of fruit raised in the state.

It was estimated by local dealers that $10,000 worth of peaches were shipped into Maryville last year and that there will not be any shipped in this year because of the local crop. If there are any peaches shipped in at all they will arrive last in October and will be fancy Michigan peaches which will be used for table use, spicing and peach pickles.

It is expected that apples will not be shipped in this year either. Last year about $15,000 worth of apples were shipped into the county or about ten carloads.

The local market looks good for home grown fresh fruits and vegetables. Just at present the market is flooded with tomatoes. All of the merchants are loaded up with them and there is not any demand on the part of the public. Practically everyone has their own backyard garden and grow thei rown tomatoes. There are lots of apples on the local markets too and there will perhaps be many apples and tomatoes wasted this year. Other vegetables and fruits can be saved by canning them.

HEALTH DEPARTMENT WORKERS IN CLINIC AT GRAHAM

The health clinic conducted at Graham yesterday was attended by eight children but no infants. Seven of the children were of pre-school age and one was a school child. Three mothers and one father attended the clinic with children.

Dr. Claude P. Fryer, county health officer, got stuck in the mud on his way to Graham. An approach to a bridge, eight miles southwest of Maryville, was not in condition to cross and as he turned around to take a different route his car stuck in the mud.

Mrs. Grace Bean, county health nurse, made two nursing visits yesterday.

Got 50 Bushels of Wheat

George E. Crosswhite of Albany arrived last night to spend a week with his sister, Mrs. Mary Tarpley.

60 MORE TICKETS FOR CHAUTAUQUA

WORKERS SURPASS QUOTA SET FOR YESTERDAY

WILL SAVE ON REQUEST

For Benefit of People in Country Guarantors Will Set Some Aside If Asked to by Mail

Sixty season tickets to the Maryville Chautauqua were sold yesterday. This raises the total number to 652. H. C. Todd, chairman of the guarantors, says that this number is ten more than the estimate for yesterday. It was estimated that fifty could be sold yesterday and a like number today. The quota set for the two days will be reached if as many as forty are sold today.

Emmett Scott is the high man in making sales in the country yesterday and E. M. Houchens and his helpers made the high record in town. Mr. Houchens and his helpers sold ten tickets yesterday.

A. T. Estes and his helpers hold the high record for the total, however. They have sold seventy-three adult and eleven children's tickets to date.

Mr. Todd announced this morning that for the benefit of those who live outside of town and who in many cases are so busy with their work that they do not have time to come to town, season tickets will be reserved at his office on notice by postal card or letter of the number desired. Mr. Todd will save the tickets and they can call for them when they get ready and will not be subject to the increase in price, which will be made on the tickets if the guarantee is reached before the chautauqua starts. The increase will be made at the opening of chautauqua, regardless of whether the guarantee has been reached or not.

Mr. Todd says that it is not possible to get men to do much soliciting in the country, owing to the rush of farm work.

Roy A. Kinnaird, county agent, has 1,500 tickets on hands at his office and will give them out for the opening number to members of the farm bureau and their families, to hear the talk of Homer C. Boblitt.

$60 MORE IN STATE FAIR FILM FUND

MEMBERS OF MYRTLE TREE FARM CLUB GIVE $45

AT IMPLEMENT BUILDINGS

R. P. Hosmer Receives Word That Location for Showing Is to Be Best on Grounds

Sixty dollars more has been contributed by farmers of the county for the showing of the agriculture films of the Chamber of Commerce at the State Fair at Sedalia. Forty-five dollars of this amount was contributed by members of the Myrtle Tree Farm Club. The farmers are responding well in the movement of raising the money in order that their county may have the unique exhibition of the fair this year. The fair begins August 19 and with the plans that are still being made by the farmers for sending the films is likely that the fund will be swelled considerably more.

Following are the contributors from the Myrtle Tree Farm Club and the amounts that they put up:

J. F. Dowden—$10.
Ernest Wray—$10.
J. C. Chesnut—$5.
Will Phares—$5.
A. B. Dowden—$5.
Tom O'Day—$5.
W. C. Pierce—$5.

Although the contribution from the farm club is liberal it is said that there will probably be other subscriptions from members of the organization.

Others who have made subscriptions recently are:

W. W. Alexander—$5.
Dick New—$5.
Emmett Scott—$5.

R. P. Hosmer received a telephone call yesterday from Sedalia stating that the tent in which the Nodaway County films will be shown is to be placed among the buildings housing the farm implement display at the fair. This location is especially advantageous, as it will be noticed more there, perhaps, than at any other place it could be on the grounds.

Arrangements are being made for advertising the Nodaway County exhibit fully. The pictures will be run throughout each day of the fair. It is said that this exhibit will attract more attention and favorable comment than any exhibit of a county's products shown at the Missouri State Fair, and this is saying considerable.

PRESIDENT'S RAIL PLAN ANNOUNCED

BIG CONFERENCE IS GOING ON TODAY

TO WORK IMMEDIATELY

Men to Accept Wage Reduction Pending Further Hearing on Matter By Labor Board

Chicago, Aug. 1. — The President's plan for settlement of the rail strike was announced officially as the executive committee of the striking railway shopmen entered the conference to determine their attitude. The plan was set forth in a telegram from President Harding to B. M. Jewell, the leader of the shopmen.

In the matter of seniority the employees who remained on the job in the strike will receive preferential treatment. Men who have been on strike will return with their seniority rights subject to those rights acquired in the strike by men who remained on the job and the seniority of the new employees will date from the time they entered the service.

The men will accept the recent wage reductions of the railroad labor board, pending a further hearing or rehearing on the matter by the board.

"Farming out" of shop work by the railroads will be discontinued.

Discussion of the establishment of adjustment boards.

New York, Aug. 1.—The President's plan for settlement of the rail strike was presented to the presidents of the 148 railroads by Secretary of Commerce Hoover.

He said that he had talked to the operators of other states and they were taking the same position. He said that the invitation by Lewis was a bluff, attempting to pick up a few operators in conference to make terms meeting one central competitive fields.

Hillsboro, Ill., Aug. 1—Although the Illinois operators will probably decline the Lewis invitation, the Cleveland conference may have a new proposal leading to the settlement of the strike, president Rice Miller of the operators announced. LONG-REED GREAT OFFYEAR CONFLICT

NEVER BEFORE WAS THERE ONE SO BITTER

EACH STUMPS STATE

Began Their Fight Months Ago and Have Carried It on Continuously Since Then

By George R. Holmes, International News Service Staff Correspondent.

Washington, Aug. 1.—The most spectacular political fight of the year commanded the attention of the National Capital to-day, crowding even the industrial turmoil that afflicts the country temporarily in the background of popular interest.

Senator James Reed, the twofisted orator of the Senate, the Democratic irreconcilabe of the League of Nations, the bitter foe of Woodrow Wilson, the "rantin', rarin', hell raisin' Jim," as one of his colleagues first referred to him is fighting for his Senatorial life to-day in Missouri primaries.

Opposed to him is Breckinridge Long, the young former State Department official, and all of the influence that Woodrow Wilson can exert from his quiet home in S. street, where the former President remains these hot, trying months, still a "very sick man."

No primary contest of this offyear in politics has been so bitter, so filled with intense feeling and prodigious effort as the Reed-Long contest in Missouri to-day. For months both Reed and Long have stumped the State from one end to the other.

Reed Called Obstructionist.

Long and his friends have charged that Senator Reed is an obstructionist, a political maverick, and that he read himself out of his party by the unrelenting opposition he offered to the Administration of Woodrow Wilson.

Reed and his friends have countered with the charge that the battle in Missouri this year is the "Wilson fight all over again." They have spread broadcast throughout the State the word that "a vote for Long means a vote for Woodrow Wilson." To the charge of Senator Reed's being an obstructionist, they have replied that "Jim Reed is a rubber stamp for no man, wheather he be President or otherwise."

There is no more interest spectator of to-day's fight in Missouri than Woodrow Wilson himself. From his seclusion in S street the former President has three times struck out at his old opponent, and urged that he be repudiated by the Democrats of Missouri.

Wilson Writes Letter.

Once he wrote a letter to a Missouri newspaper, referring to his old enemy as being "incapable of sustained allegiance to any person or any cause"; next he wrote a letter to a prospective candidate in the primaries against Reed, advising him to stay out of the race so as not to complicate it; and still again he voiced his dislike for Senator Reed in a letter that found its way into the newspapers.

Reed's chances of winning the nomination to-day are considered dubious by his colleagues in the Senate. Conflicting advices have reached Washington as to the temper of the Missouri Democracy. Reed's friends assert that he has won his fight by a campaign that has few equals for strenuosity and gruelling effort, but they admit that the issue is closely drawn.

Long's friends in Washington are equally positive that Reed is doomed to defeat. They point out that two years ago in San Francisco Senator Reed was denied credentials as a delegate to the Democratic National Convention from his own Jackson County, and that it was the women who had most to do with his being denied a seat.

Women Oppose Reed

"The women vote will defeat Reed if nothing else," is the confident prediction of Long's friends.

Four other States beside Missouri hold primaries to-day—Kansas, Virginia, Oklahoma and West Virgina. In Kansas and Oklahoma there are only Congressional and State candidates to be nominated, but in West Virginia and Virginia there are Senatorial contest.

Senator Claud A. Swanson is a candidate to suceed himself as Democratic Senator from Virginia, and it is conceded that he will be renominated, as there is little opposition.

In West Virginia, however, there has been a Senatorial fight of considerable warmth going on for weeks, although it has attracted little attention outside the State.

Senator Howard Sutherland (R.), who has been in Washington both as Senator and Representative for ten years, is a candidate to succeed himself.

Has Four Opponents.

He is opposed by four men—M. F. Jones, a so-called "farmer candidate"; A. A. Lilly, a former Attorney General of the State; H. Ogden, a newspaper proprietor, and Charles F. Edwards, a manufacturer.

Sutherland's friends are confident he will be renominated, although the opposition is accounted strong.

In Oklahoma's primaries "Aunt Alice" Robertson, the only women in Congress, is up for renomination.

Her platform for renomination, she says, is just what it was when she was elected in 1920 in the Republican landslide that swept over politically doubtful States.

"Aunt Alice" herself gives this platform in twelve words in the Congressional Directory. It is this:

"I am a Christian. I am an American I am a Republican."

Bobbed Tresses to Vanish as Flowing Robes Come to Use

St. Louis, Aug. 1.—A Grecian maiden with classically bound hair, long draping and flowing robes and sandal-like footwear—such will be the stylish girl who will replace the present "flapper," in the opinion of some of the delegates who are at the 3-day convention of the National Hairdressers' Association which opened here Sunday.

The hairdress naturally will have to fit the flowing sleeves of the straight line frocks, which have been designed by "Dame Fashion" for the present time, declared one of the delegates, and in accordance with that edict bobbed hair eventually will have to go.

The coiffure must fit fashion and place, said another expert, and it's about time that women learn not to wear the same sort all the time. A coiffure becoming for afternoon wear is not always fitting for evening appearance or some other occasion.

The oldest man and woman living on a farm in the United States will be awarded a $50.00 prize in gold and a trip to the Central States Exposition at Aurora, Ill., and a number of farm implements, according to the information received by Roy A. Why Rebore Cylinders?

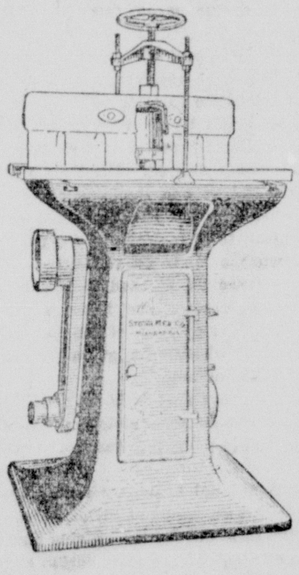
A large number of almost new cylinder blocks became scored through accident or neglect. Likewise, it is a well-known fact that all cylinders wear tapered and out of round, the greatest wear occurring at the extreme top nearest the compression chamber, where exposed to the direct action of the burning gas and the carbon and dust of incoming charges. The friction of the rings and the imperfect lubrication at this point further increase this wear. The extreme lower portions of the cylinder, always receiving an abundant oil bath, usually suffer little or no wear.



The angularity of the piston rods during the compression and explosion strokes causes a heavy side-thrust alternately from side to side, producing the annoying knock commonly termed "piston slap" and causing the cylinder to wear out of round. This wear is also greatest at the top.

The following troubles are liable to occur as the result of scored and worn cylinders:—

1. Fouled and ruined spark plugs.
2. Excessive carbon deposits and valve trou ble.
3. Loss of power and speed.
4. Increased consumption of fuel and oil.
5. Weak and imperfect compression and ignition.
6. Diluted oil due to gas leaking past rings and imperfect lubrication.
7. Injured or ruined bearings.

The previous methods of attempting to rectify these troubles was first to use over-size "leak proof" rings, or, as was more often done, new, slightly oversize pistons were lapped in, a slow, tedious process, and really not practical exept where the wear is exceedingly slight, and even then the results will scarcely warrant the time and efforts expended. The modern and logical remedy is reboring cylinders and fitting new pistons and rings of proper size.

With our new Storm reboring machine the cylinder is made perfect and hard and it is possible for us to fit pistons absolutely perfectly on all makes and sizes of autos, trucks or tractors.

Farmer Brown Is Made Believer In Vitalized Agriculture

Farmer Brown pushed his hat off his forehead and wiped the sweat drops from his face.

"I don't take any stock in this new fangled agriculture," he said, "John's all worked up about it and says he will show us some day how much it can help. Why, what's the matter now?"

With that question the farmer brought his mind back to his work with the grim realization that the old time trouble in hay harvest had come. The hay rope had broken. No more rope on the place and fourteen miles between him and town.

John, his eldest son, a lad of eleven years, appeared upon the scene.

"Well, Pa, what's the matter now? Oh, I see, the rope is broken."

Without further words the quick-minded lad produced his needful tools, a button hook and marlin pin, and went to work. Only a short time had elapsed when he held up the neatly mended rope.

The neat splice was an object of wonder to the amazed farmer. Only ten minutes had elapsed between the breaking of the rope and the finishing of the splice. John had won. The school was doing the needful thing in teaching boys and girls practical knowledge. No more criticism of vitalized agriculture from John's father. He had been an advocate of the old methods, but now he was ready for the progressive way.

GETTING RID OF COAL PROBLEM

NODAWAY COUNTY FOLK PUTTING IN OIL HEATERS

140 GAL. FOR TON COAL

Are Installing Tanks to Store Amount Sufficient to Heat Home for the Winter

The number of huge tanks which have been carried out of Maryville on trucks have caused many to think that the shortage of coal which might have resulted from the coal strikes would not have hurt this part of the country as much as might be expected. The prevalence of oil burners for homes in the county is larger than might be expected. Last winter approximately thirty-five people burned oil in their homes and about eighteen tanks have been sold here for that purpose this summer.

A carload of five tanks arrived yesterday and have been unloaded. Many of the new home builders are installing oil heating apparatus and old homes are being equipped with it.

It is about a days work to install the burners in a furnace and only about ten minutes to take them out. Distillate oil is used in the burners. It is estimated that there are about the same number of heat units in 125 or 140 gallons of the oil as there is in a ton of coal. The oil is stored in gravity tanks which range in capacity from 2,000 to 4,700 gallons. Three 4,700 gallon tanks and three 3,000 gallon tanks have been sold recently in Maryville. The others have been 2,000 gallon tanks.

Those who are installing this form of heating in their new homes are: Forrest Gillam, Hal Hooker, Dr. F. M. Martin and Prof. H. A. Foster. Others who are putting in the oil heating are W. C. Pierce, Harry Todd, Mrs. Thornhill, George Wilfley, Dr. F. R. Anthony N. Sisson, F. P. Robinson, J. B. Robinson, C. D. Hooker, D. D. Miller and H. H. Mutz.

When one burns oil he has no ashes to carry out and no coal to shovel, it has been pointed out. He is also rid of the coal soot and dust.

Returns From Vacation
